PROFICIENCIES

- JavaScript
- Ruby
- Rails
- HTML and CSS

- ReactJS
- jQuery
- Unity3D
- Virtual Reality

EDUCATION

Jan - June 2015
Flatiron School
Six Month Web Development Immersive Program

2008 - 2013
State University of New York at Oswego
Bachelor of Arts, major in Communications and Social Interaction

EXPERIENCE

Software Engineer
IAC Applications, New York, 2016 - Present
- Optimizes multiple products with a cutting edge web stack to increase lifetime value for users (React.js, Redux, and Flux).
- Incorporating expansive best practices of UX to improve product quality.
- Creating configurable interface to help non technical users work on optimization.
- Building out multiple variation tests for user and feature testing.

Associate Software Engineer
IAC Applications, New York, 2015 - 2016
- Worked with an extensive technology stack (JavaScript, CSS, jQuery, responsive design)
- Broadly integrated multiple front-end build systems (Grunt, Node.js, Gulp, etc)
- Incorporated React / Flux into current stack

Civic Technology Web Development Fellow
Microsoft, New York, 2015
- Constructed an extensive data visualization tool in d3JS using a SQL Academy database, angularJS, and multiple API's
- Composed a data visualization application using D3JS
- Created landing page for Microsoft sponsored tech training program in collaboration with New York City's Mayor's office and academic partners
- Establishing networks within the New York City Civic Technology community
- Collaborating with Civic Hackers, programmers, start-ups, non-profits, universities, and government entities to build applications that apply open data and solve civic problems
